Ms. Jennifer Anne Brehme,

My name is Martin Driskill and I am the web administrator of a peace building and reconciliation project online that you have found yourself to become involved into matters that need addressed.

There is no opt out of this networking presence. This specifically relates to the active technology that is a tech spec available to internet domains that most internet domain web admins have disabled. Since this is a tech available to internet domains, the use of your name can be used by anyone at anytime from any position on the planet to address content on these domains. It does not require any technical defines for content to serve and for content to get indexed into search indexes. I will explain in more detail below.

examples: <http://anyfirstname-middle-anylastname.gruwup.net/Banner.png> : <http://president-donald-john-trump.gruwup.net>

This is a different kind of digital working space --- called a memespace.

According with certain usage rights on the web, where privacy is a part of the arrangements with personal information, websites allow you as the person involved to be able to remove and or control the information about you on their website. This as a part of information that is being used as a marketing business model or information in a profit model of transactions between members and public. Persons have the right to remove their information that is being used within a profit model information system.

That is a different kind of web information domain service.

In the case of where you are currently detailed within this networking web presence, you are in a different kind of arrangement.

There is absolutely nothing to buy and no monetary exchange or barter value of any kind can be traded to just simply remove your presence off of this mission web networking platform. None of the information reflecting of or affixed to your name has any trade or

exchange for monetary value with other parties to include pay for click links.

This is why this arrangement on this domain web presence is different.

The networking presence is designed with some foundational wisdoms carried into practice called The Adinkra Symbolic Communication Symbols. By the way, the origin source name of Adinkra is used to name a field of science. These are a part of our world society of values. If you don't like the world society, don't work in a field that interfaces to the public of people that have common values from all over the world to make up their lives of worthy happiness from. That is not an attempt at an insult but a matter of fact relating to non-american source materials that happen to be African --- if you are so inclined to be a racist.

This network that is directing communications to you is founded as a triad naming space and each internet domain on this triad represents a part of a building trust ladder where one point is center to two opposite polarities of trust.

A positive trust [> 0] defined on the top, the center point [= 0] and on the bottom of the trust ladder to begin climbing and building trust upward is a negative trust or an erosion of trust, loss of trust or simply distrust. { < 0 }

I am sure you are familiar with the naming construct as the reason why you are placed into this web presence is reflected for you by a simple google search

[[Jennifer Anne Brehme](#)].

If you carry over to the [images section](#) of the google search, you will find images that match in some way to your name.

You might realise that the mocked up business card in your name issued by HipaaSpace with a notation of your web presence on this network is one of the images noted. You will also see that any of your actual content priority prior placement has been supplanted with this web new top placement presence. There is very good logical reason for that, all perfectly within the legal limits of our internet

information society herein. You most likely have already consulted with an different attorney than Alan Leahy. If Mr. Leahy did not drop you directly as a client when what was disclosed to him in public forum on LinkedIn reflects the truth to your business operations model that is not working and is a great disservice to our community.

I don't have time to wait for you to remove your conflict of interests but only to come to understanding, peace, and reconciliation from what is a wicked problem of an intractable conflict that has been long standing way long before you were working for Foothill Aids Project.

You have certain job loyalty positions to consider and I understand that. You also have certain rights that I have to consider as well. The right against self-incrimination or as you might want to call it the right to remain silent. This is not a police involvement at this time. You also have the right to engage with this network in private confidential communications. All you have to do is to define your position standing so that I can make the necessary digital flags and data definitions as appropriate. If communications proceed in confidence will remain in confidence per my word and my bond as a former notary public and mission working this project here as a trust binding project networking ideal. I do not break my trusts. Once binded, I expect the same in return. A different kind of working paradigm to be goal point working on our entire society information platforms..... someday.....

Currently you are listed as an underlying hierarchy under the folder Staff by your job position at Foothill Aids Project. Your organization is noted as a part of several being used to define personal experiences and documentation of something wicked that needs to be addressed. You can make yourself an independent agent as your web presence is noted currently under Foothill Aids Project. I can make your web presence into a better light for the reconciliation process. Individually or as an organization. or Neither. You have freewill and free choice to ignore this, decline this building trust to which read on to unintentional consequences for ignoring this truth information society web presence that cannot be ignored, denied, or claimed to be some kind of delusion or illegality of technology usage in our society world.

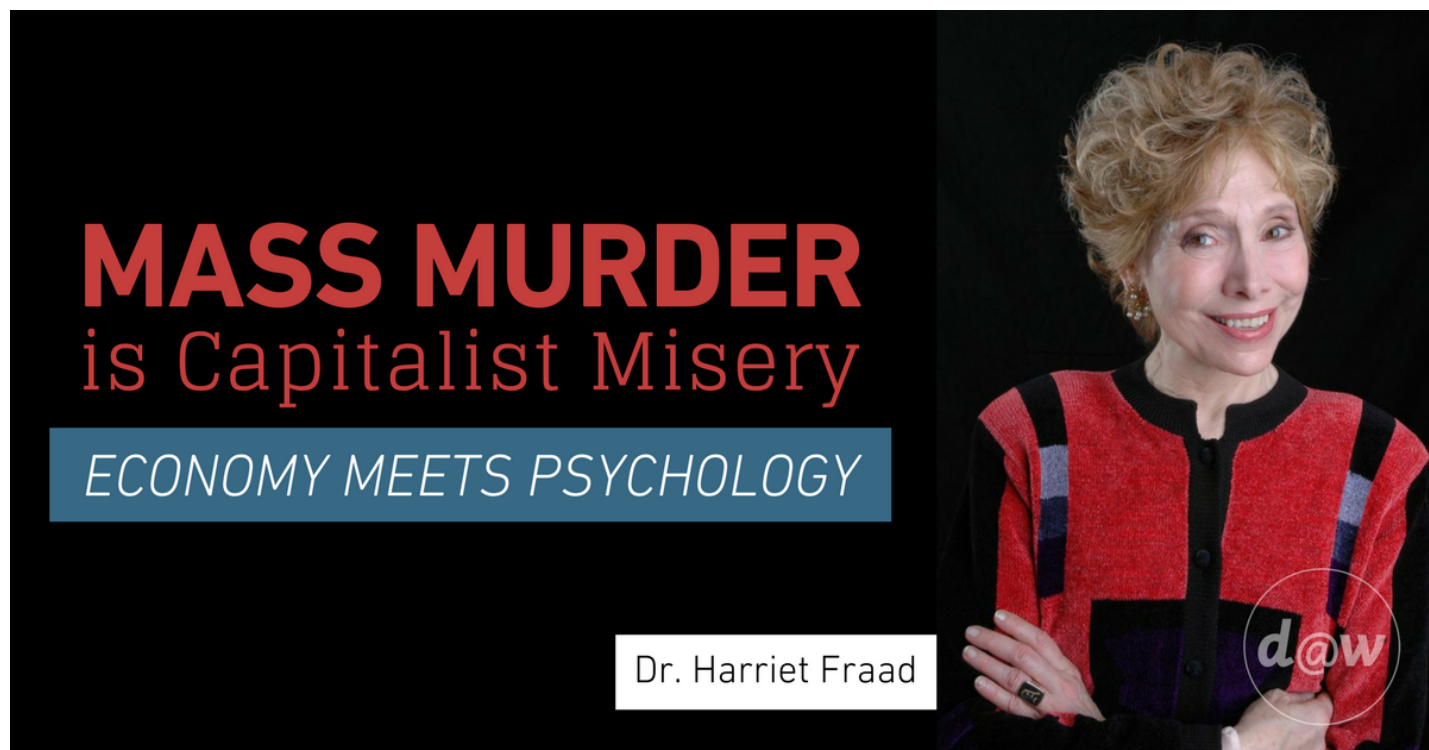

We have to move from the digression scale [< 0] trust value and climb onto the lower rungs of this trust ladder reflecting of the truth that is reflecting by your name web presence that should not just be carelessly disregarded.

This to build trust to at least the center point [= 0] of an understanding and agreement to proceed forward. For the reasons why this is important to engage is expressed in many of my community addressing messaging.

Please review the images section from the Google Search your name and note that I have indeed placed this matter to the direction attention of the San Bernardino Police and I am ready to proceed with a complaint to the District Attorney.

The reason and the purpose for this reconciliation is to actually save lives of those persons who have been placed at a disadvantage from the agency side of the Ryan White Care Act funded social service agencies.

You are not personally being held responsible for the entire system of acts that have been done but you are at a disadvantage as currently showing onto our information society. We cannot continue this pretense that there is not something secretly being involved here and that secret makes it not right but wrongdoing.

If you would like to discuss how you can remove your entire web presence located at

<http://jennifer-anne-brehme.fuckeduphuman.net>

with a google search console entry specifically reflecting that this key is the "property" of this networking site.

In terms of usage, there is nothing illegal for the matter of practice that is being used here in "persuasive technology" information theory design. As found on the root directory of each of these domains, there is a banner image that reflects that adinkra symbol to each domain.,

[+Trust > 0]  [Banner.png](#) 2018-08-08 05:01 95K

@Realuphuman.net : #Kramobone, means One Bad Makes All Look Bad Or The Bad Makes It Difficult For The Good To Get Noticed, It is a warning symbol against deception and hypocrisy. This is called an "Honesty Binding" --- reflects positive trust values of integrity.

[= 0 Trust]  [Banner.png](#) 2018-08-07 01:39 123K

@Gruwup.net : Great Reasons Us Will Unite Peace #Nyansapo, Wisdom Knot Binding. The Adinkra Symbol specifically is called "Wisdom Knot" and there a set of guiding principles found on this site that is being followed.

[-Trust < 0] [Banner.png](#) : [Meaning.png](#)

@Fuckeduphuman.net --- Not a name calling site, although it seems you have found yourself to not care to remove yourself from the line of indexing.

This domain represents the Adinkra Symbol of #Mpatapo, or the knot the bind parties together involved in dispute to a peaceful forum of discussion and resolve. Once this is resolved with Honesty Binding, Wisdom Binding, We have this third binding called "Peace/reconciliation binding". All three bindings in unison formed is like nothing else to exist on the planet. It is called a Trust Binding.

Where you are sitting reflects a negative value trust. There are reasons for this and you are aware of them. You must wake up and realize that the goal of this network is not to keep you hostage of exiled to this space forever. But your failure to see the peril of future relationships on how this web presence is noted in your name search results, could potentially be damaging to your reputation for which you apparently have not had incentives to correct the matter and reconcile the truth to these circumstances.,

TO WHOM IT MAY CONCERN,

The internet domain technology being used in this address has featured technology enabled to internet domains that must domain webadmins disable. It is purposefully enabled on the web presence technology domain network that is directing you this message. This is an open prefixed naming space to the left of the base content URL for any content that is being served from this network. The space is large defined up to about 200 characters long. Any name, any place, any thing can be used in the field namespace by anyone of the world. Any use of that name can be defined and if placed into a public document, will be placed into search index indexes as a valid use

of NAMING URL ADDRESSING.

CHAPTER IX.

SOCIAL IMPROVEMENT.

" Go fix some weighty truth ;
Chain down some passion ; do some generous good ;
Teach ignorance to see, or grief to smile ;
Correct thy friend ; befriend thy greatest foe."

As in the material world, without light there can be no shade to contrast with it, and as no poison exists without its opposite in the form of an antidote, so it is in the mental world, there is not a moral evil or poison, however deadly, but has its antidote in the spirit. Our Saviour suffered in, and left, the material world, in order that He might restore to us the use of our spiritual nature. He said, "I go to send the Comforter unto you, that He may teach you all things." This spirit was promised without limitation, or reservation of any kind, to all who loved God, and

Words To Live By

Art thou dejected?
 Is thy mind o'er-cast?
 To chase thy gloom,
 Go fix some weighty truth;
 Chain down some passion;
 do some generous good;
 Teach Ignorance to see,
 or Grief to smile;
 Correct thy friend;
 befriend thy greatest foe;
 Be just in all things; make amends
 For follies past, and, with warm heart,
 Forgive, and be forgiven.
 Let work not words Thy virtue prove.
 Go act as well as prate,
 And then thy counsels will be strong,
 Thy reprimands avail. —ANON

THE province of the historian is to gather the threads of the past ere they elude forever his grasp and weave them into a harmonious web to which the art preservative may give immortality. Therefore he who would rescue from fast gathering oblivion the deeds of a community and send them on to futurity in an imperishable record should deliver a plain unvarnished tale.

I do not know what it will take for you to respond a response of responsibility. This web presence is holding a binding. You are in a different paradigm here understanding perhaps to conclude that you would not want to remain public visible in this attention getting light for an extended duration. What appears to be a business card is sourced from your actual PHYSICIAN licence site. The source image is quickly found by google images search using your name. Further does not have a copyright affixed which means it is public domain useable. I choose to take advantage of that status. For anyone to perform an image search of your name, it might be noticed there are other images in the return results displayed to the public interest of these circumstances documented by this networking web presence. **This places a binding on to this casting that you as the subject of this web presence would not just ignore this!!** It seems strange or a skew from any kind of normalcy that such exposure creates affixed to your name. Some might make the obvious conclusion that you are a bit [or a boast] irresponsible somehow to hold this web presence status in the first place. This was PRIOR to your email re: Housing Question

Ms. Jennifer Anne Brehme,

My name is Martin Driskill and I am the web administrator of a peace building and reconciliation project online that you have found yourself to become involved into matters that need addressed.

There is no opt out of this networking presence. This specifically relates to the active technology that is a tech spec available to internet domains that most internet domain web admins have disabled. Since this is a tech available to internet domains, the use of your name can be used by anyone at anytime from any position on the planet to address content on these domains. It does not require any technical defines for content to serve and for content to get indexed into search indexes. I will explain in more detail below.

examples: <http://anyfirstname-middle-anylastname.gruwup.net/Banner.png> : <http://president-donald-john-trump.gruwup.net>

This is a different kind of digital working space --- called a memespace.

According with certain usage rights on the web, where privacy is a part of the arrangements with personal information, websites allow you as the person involved to be able to remove and or control the information about you on their website. This as a part of information that is being used as a marketing business model or information in a profit model of transactions between members and public. Persons have the right to remove their information that is being used within a profit model information system.

That is a different kind of web information domain service.

In the case of where you are currently detailed within this networking web presence, you are in a different kind of arrangement.

There is absolutely nothing to buy and no monetary exchange or barter value of any kind can be traded to just simply remove your presence off of this mission web networking platform. None of the information reflecting of or affixed to your name has any trade or exchange for monetary value with other parties to include pay for click links.

This is why this arrangement on this domain web presence is different.

The networking presence is designed with some foundational wisdoms carried into practice called The Adinkra Symbolic Communication Symbols. By the way, the origin source name of Adinkra is used to name a field of science. These are a part of our world society of values. If you don't like the world society, don't work in a field that interfaces to the public of people that have

common values from all over the world to make up their lives of worthy happiness from. That is not an attempt at an insult but a matter of fact relating to non-american source materials that happen to be African --- if you are so inclined to be a rasist.

This network that is directing communications to you is founded as a triad naming space and each internet domain on this triad represents a part of a building trust ladder where one point is center to two opposite polarities of trust.

A positive trust [> 0] defined on the top, the center point [= 0] and on the bottom of the trust ladder to begin climbing and building trust upward is a negative trust or an erosion of trust, loss of trust or simply distrust. { < 0 }

I am sure you are familiar with the naming construct as the reason why you are placed into this web presence is reflected for you by a simple google search

[[Jennifer Anne Brehme](#)].

If you carry over to the [images section](#) of the google search, you will find images that match in some way to your name.

You might realise that the mocked up business card in your name issued by HipaaSpace with a notation of your web presence on this network is one of the images noted. You will also see that any of your actual content priority prior placement has been supplanted with this web new top placement presence. There is very good logical reason for that, all perfectly within the legal limits of our internet information society herein. You most likely have already consulted with an different attorney than Alan Leahy. If Mr. Leahy did not drop you directly as a client when what was disclosed to him in public forum on LinkedIn reflects the truth to your business operations model that is not working and is a great disservice to our community.

I don't have time to wait for you to remove your conflict of interests but only to come to understanding, peace, and reconciliation from what is a wicked problem of an intractable conflict that has been long standing way long before you were working for Foothill Aids Project.

You have certain job loyalty positions to consider and I understand that. You also have certain rights that I have to consider as well. The right against self-incrimination or as you might want to call it the right to remain silent. This is not a police involvement at this time. You also have the right to engage with this network in private confidential communications. All you have to do is to define your position standing so that I can make the necessary digital flags and data definitions as appropriate. If communications proceed in confidence will remain in confidence per my word and my bond as a former notary public and mission working this project here as a trust binding project networking ideal. I do not break my trusts. Once binded, I expect the same in return. A different kind of working paradigm to be goal point working on our entire society information platforms..... someday.....

Currently you are listed as an underlying hierarchy under the folder Staff by your job position at Foothill Aids Project. Your organization is noted as a part of several being used to define personal experiences and documentation of something wicked that needs to be addressed. You can make yourself an independent agent as your web presence is noted currently under Foothill Aids Project. I can make your web presence into a better light for the reconciliation process. Individually or as an organization. or Neither. You have freewill and free choice to ignore this, decline this building trust to which read on to unintentional consequences for ignoring this truth information society web presence that cannot be ignored, denied, or claimed to be some kind of delusion or illegality of technology usage in our society world.

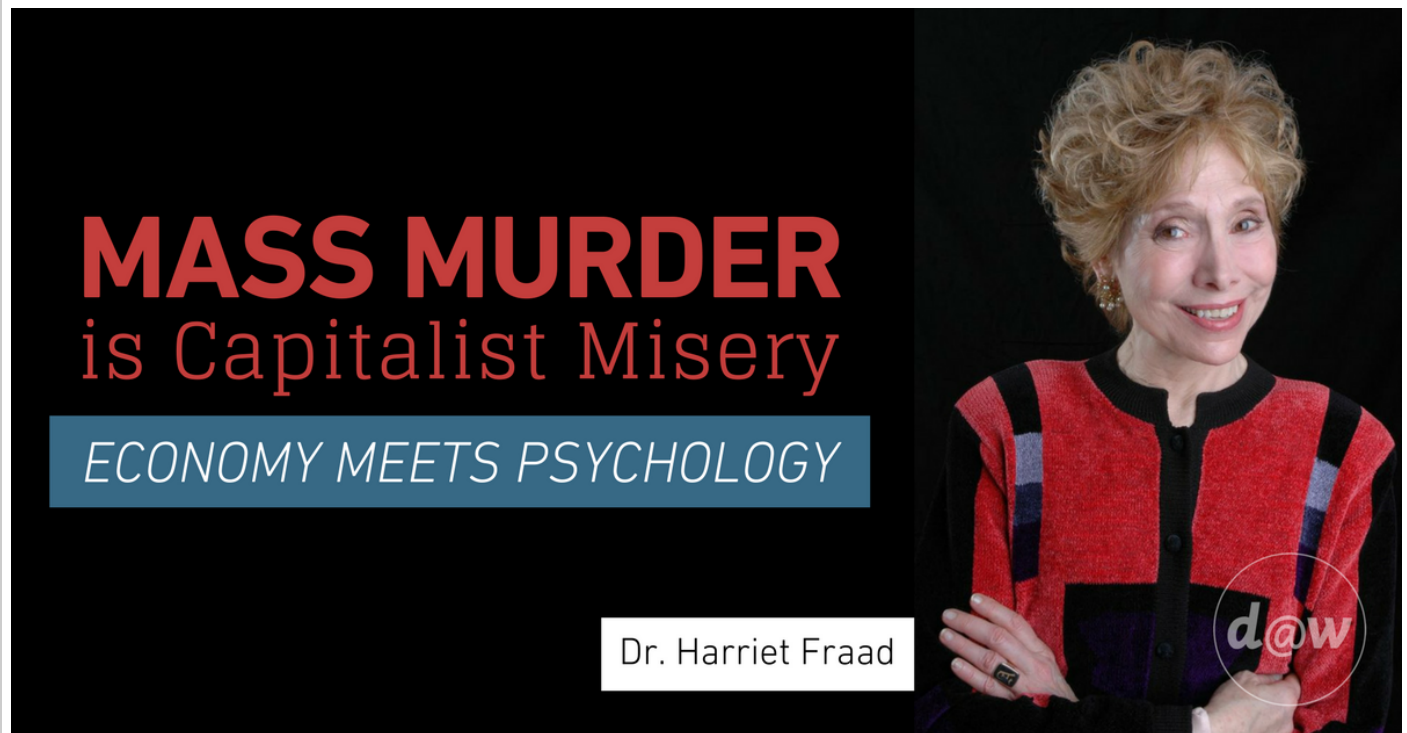

We have to move from the digression scale [< 0] trust value and climb onto the lower rungs of this trust ladder reflecting of the truth that is reflecting by your name web presence that should not just be carelessly disregarded.

This to build trust to at least the center point [= 0] of an understanding and agreement to proceed forward. For the reasons why this is important to engage is expressed in many of my community addressing messaging.

Please review the images section from the Google Search your name and note that I have indeed placed this matter to the direction attention of the San Bernardino Police and I am ready to proceed with a complaint to the District Attorney.

The reason and the purpose for this reconciliation is to actually save lives of those persons who have been placed at a disadvantage from the agency side of the Ryan White Care Act funded social service agencies.

You are not personally being held responsible for the entire system of acts that have been done but you are at a disadvantage as currently showing onto our information society. We cannot continue this pretense that there is not something secretly being involved here and that secret makes it not right but wrongdoing.

If you would like to discuss how you can remove your entire web presence located at

<http://jennifer-anne-brehme.fuckeduphuman.net>

with a google search console entry specifically reflecting that this key is the "property" of this networking site.

In terms of usage, there is nothing illegal for the matter of practice that is being used here in "persuasive technology" information theory design. As found on the root directory of each of these domains, there is a banner image that reflects that adinkra symbol to each domain.,

[+Trust > 0]  Banner.png 2018-08-08 05:01 95K

@Realuphuman.net : #Kramobone, means One Bad Makes All Look Bad Or The Bad Makes It Difficult For The Good To Get Noticed, It is a warning symbol against deception and hypocrisy. This is called an "Honesty Binding" --- reflects positive trust values of integrity.

[= 0 Trust]  Banner.png 2018-08-07 01:39 123K

@Gruwup.net : Great Reasons Us Will Unite Peace #Nyansapo, Wisdom Knot Binding. The Adinkra Symbol specifically is called "Wisdom Knot" and there a set of guiding principles found on this site that is being followed.

[-Trust < 0] [Banner.png](#) : [Meaning.png](#)

@Fuckeduphuman.net --- Not a name calling site, although it seems you have found yourself to not care to remove yourself from the line of indexing.

This domain represents the Adinkra Symbol of #Mpatapo, or the knot the bind parties together involved in dispute to a peaceful forum of discussion and resolve. Once this is resolved with Honesty Binding, Wisdom Binding, We have this third binding called "Peace/reconciliation binding". All three bindings in unison formed is like nothing else to exist on the planet. It is called a Trust Binding.

Where you are sitting reflects a negative value trust. There are reasons for this and you are aware of them. You must wake up and realize that the goal of this network is not to keep you hostage of exiled to this space forever. But your failure to see the peril of future relationships on how this web presence is noted in your name search results, could potentially be damaging to to your reputation for which you apparently have not had incentives to correct the matter and reconcile the truth to these circumstances.,

TO WHOM IT MAY CONCERN,
The internet domain technology being used in this address has featured technology enabled to internet domains that must domain webadmins disable. It is purposefully enabled on the web presence technology domain network that is directing you this message. This is an open prefixed naming space to the left of the base content URL for any content that is being served from this network. The space is large defined up to about 200 characters long. Any name, any place, any thing can be used in the field namespace by anyone of the world. Any use of that name can be defined and if placed into a public document, will be placed into search index indexes as a valid use of NAMING URL ADDRESSING.

CHAPTER IX.

SOCIAL IMPROVEMENT.

"Go fix some weighty truth ;
 Chain down some passion ; do some generous good ;
 Teach ignorance to see, or grief to smile ;
 Correct thy friend ; befriend thy greatest foe."

As in the material world, without light there can be no shade to contrast with it, and as no poison exists without its opposite in the form of an antidote, so it is in the mental world, there is not a moral evil or poison, however deadly, but has its antidote in the spirit. Our Saviour suffered in, and left, the material world, in order that He might restore to us the use of our spiritual nature. He said, "I go to send the Comforter unto you, that He may teach you all things." This spirit was promised without limitation, or reservation of any kind, to all who loved God, and

Words To Live By

Art thou dejected?
Is thy mind o'ercast?
To chase thy gloom,
Go fix some weighty truth;
Chain down some passion;
do some generous good;
Teach Ignorance to see,
or Grief to smile;
Correct thy friend;
befriend thy greatest foe;
Be just in all things; make amends
For follies past, and, with warm heart,
Forgive, and be forgiven.
Let work not words Thy virtue prove.
Go act as well as prate,
And then thy counsels will be strong,
Thy reprimands avail. —ANON

THE province of the historian is to gather the threads
of the past ere they elude forever his grasp and weave
them into a harmonious web to which the art preservative
may give immortality. Therefore he who would rescue from
fast gathering oblivion the deeds of a community and send
them on to futurity in an imperishable record should deliver
a plain unvarnished tale.

It seems strange or a skew from any kind of normalcy that such exposure creates affixed to your name. Some might make the obvious conclusion that you are a bit [or a boast] irresponsible somehow to hold this web presence status in the first place. Further dynamically applied that would be for an extended period of time would be conclusive that you can't find yourself to right a wrong that you are involved in somehow. Even if that would be to make a domain query "content removal request". This web presence is demanding your accountability response upon matters which you internally know. These matters are too important of a contentious state life and death health related matters of a community to leave in silence holding an "intractable conflict" status. #ConspiracyExposedTerminatesASAP

Ms. Jennifer Anne Brehme,

My name is Martin Driskill and I am the web administrator of a peace building and reconciliation project online that you have found you involved into matters that need addressed.

There is no opt out of this networking presence. This specifically relates to the active technology that is a tech spec available to internet most internet domain web admins have disabled. Since this is a tech available to internet domains, the use of your name can be used anytime from any position on the planet to address content on these domains. It does not require any technical defines for content to be content to get indexed into search indexes. I will explain in more detail below.

examples: <http://anyfirstname-middle-anylastname.gruwup.net/Banner.png> : <http://president-donald-john-trump.gruwup.net>

This is a different kind of digital working space --- called a memespace.

According with certain usage rights on the web, where privacy is a part of the arrangements with personal information, websites allow person involved to be able to remove and or control the information about you on their website. This as a part of information that is a marketing business model or information in a profit model of transactions between members and public. Persons have the right to remove information that is being used within a profit model information system.

That is a different kind of web information domain service.

In the case of where you are currently detailed within this networking web presence, you are in a different kind of arrangement.

There is absolutely nothing to buy and no monetary exchange or barter value of any kind can be traded to just simply remove your permission web networking platform. None of the information reflecting of or affixed to your name has any trade or exchange for money or other parties to include pay for click links.

This is why this arrangement on this domain web presence is different.

The networking presence is designed with some foundational wisdoms carried into practice called The Adinkra Symbolic Communication. By the way, the origin source name of Adinkra is used to name a field of science. These are a part of our world society of values. If world society, don't work in a field that interfaces to the public of people that have common values from all over the world to make up

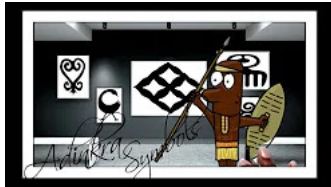

worthy happiness from. That is not an attempt at an insult but a matter of fact relating to non-american source materials that happen if you are so inclined to be a racist.

This network that is directing communications to you is founded as a triad naming space and each internet domain on this triad represents building trust ladder where one point is center to two opposite polarities of trust.

A positive trust [> 0] defined on the top, the center point [= 0] and on the bottom of the trust ladder to begin climbing and building trust or negative trust or an erosion of trust, loss of trust or simply distrust. { < 0 }

I am sure you are familiar with the naming construct as the reason why you are placed into this web presence is reflected for you by search

[[Jennifer Anne Brehme](#)].

If you carry over to the [images section](#) of the google search, you will find images that match in some way to your name.

You might realise that the mocked up business card in your name issued by HipaaSpace with a notation of your web presence on the images noted. You will also see that any of your actual content prior placement has been supplanted with this web presence. There is very good logical reason for that, all perfectly within the legal limits of our internet information society herein. You already consulted with an attorney other than Alan Leahy. If Mr. Leahy did not drop you directly as a client when what was disclosed in a public forum on LinkedIn reflects the truth to your business operations model that is not working and is a great disservice to our community.

I don't have time to wait for you to remove your conflict of interests but only to come to understanding, peace, and reconciliation from a problem of an intractable conflict that has been long standing way long before you were working for Foothill Aids Project.

You have certain job loyalty positions to consider and I understand that. You also have certain rights that I have to consider as well. self-incrimination or as you might want to call it the right to remain silent. This is not a police involvement at this time. You also have engage with this network in private confidential communications. All you have to do is to define your position standing so that I can rr necessary digital flags and data definitions as appropriate. If communications proceed in confidence will remain in confidence per m bond as a former notary public and mission working this project here as a trust binding project networking ideal. I do not break my tr binded, I expect the same in return. A different kind of working paradigm to be goal point working on our entire society information p someday.....

Currently you are listed as an underlying hierarchy under the folder Staff by your job position at Foothill Aids Project. Your organizat part of several being used to define personal experiences and documentation of something wicked that needs to be addressed. You yourself an independent agent as your web presence is noted currently under Foothill Aids Project. I can make your web presence ir for the reconciliation process. Individually or as an organization. or Neither. You have freewill and free choice to ignore this, decline to which read on to unintentional consequences for ignoring this truth information society web presence that cannot be ignored, deni be some kind of delusion or illegality of technology usage in our society world.

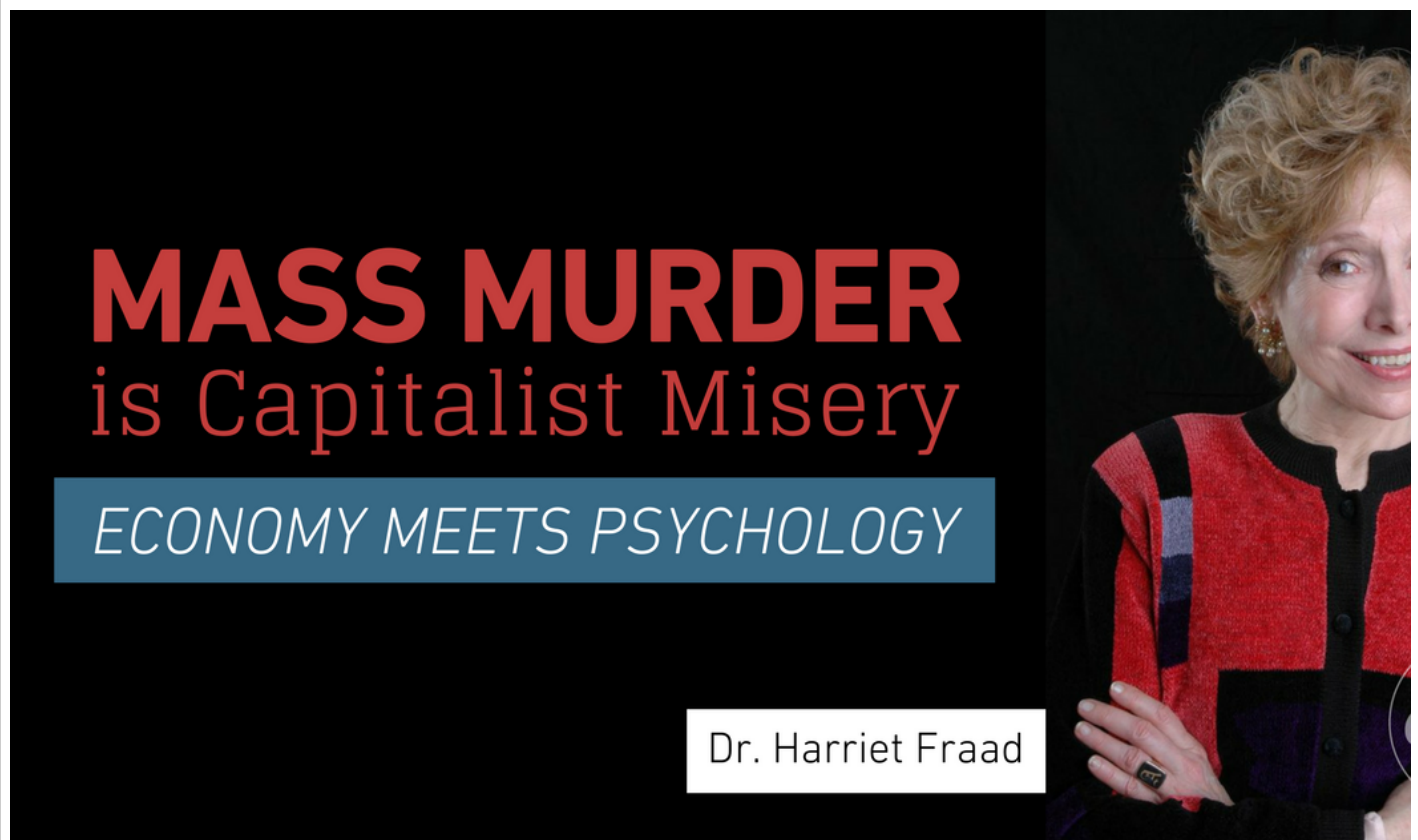

We have to move from the digression scale [< 0] trust value and climb onto the lower rungs of this trust ladder reflecting of the truth by your name web presence that should not just be carelessly disregarded.

This to build trust to at least the center point [= 0] of an understanding and agreement to proceed forward. For the reasons why this engage is expressed in many of my community addressing messaging.

Please review the images section from the Google Search your name and note that I have indeed placed this matter to the direction San Bernardino Police and I am ready to proceed with a complaint to the District Attorney.

The reason and the purpose for this reconciliation is to actually save lives of those persons who have been placed at a disadvantage side of the Ryan White Care Act funded social service agencies.

You are not personally being held responsible for the entire system of acts that have been done but you are at a disadvantage as cu onto our information society. We cannot continue this pretense that there is not something secretly being involved here and that s right but wrongdoing.

But your failure to see the peril of future relationships presence is noted in your name search results, could potentially be damaging to to your reputation for which you apparently have no correct the matter and reconcile the truth to these circumstances.,

TO WHOM IT MAY CONCERN,
The internet domain technology being used in this address has featured technology enabled to internet domains that must domain webadmins disable. It is purposefully enabled on the web presence technology domain network that is directing you this message. This is an open prefixed naming space to the left of the base content URL for any content that is being served from this network. The space is large defined up to about 200 characters long. Any name, any place, any thing can be used in the field namespace by anyone of the world. Any use of that name can be defined and if placed into a public document, will be placed into search index indexes as a valid use of NAMING URL ADDRESSING.

CHAPTER IX.

SOCIAL IMPROVEMENT.

"Go fix some weighty truth ;
Chain down some passion ; do some generous good ;
Teach ignorance to see, or grief to smile ;
Correct thy friend ; befriend thy greatest foe."

As in the material world, without light there can be no shade to contrast with it, and as no poison exists without its opposite in the form of an antidote, so it is in the mental world, there is not a moral evil or poison, however deadly, but has its antidote in the spirit. Our Saviour suffered in, and left, the material world, in order that He might restore to us the use of our spiritual nature. He said, "I go to send the Comforter unto you, that He may teach you all things." This spirit was promised without limitation, or reservation of any kind, to all who loved God, and

Words To Live By

Art thou dejected?
Is thy mind o'er-cast?
To chase thy gloom,
Go fix some weighty truth;
Chain down some passion;
do some generous good;
Teach Ignorance to see,
or Grief to smile;
Correct thy friend;
befriend thy greatest foe;
Be just in all things; make amends
For follies past, and, with warm heart,
Forgive, and be forgiven.
Let work not words Thy virtue prove.
Go act as well as prate,
And then thy counsels will be strong,
Thy reprimands avail. —ANON

THE province of the historian is to gather the threads
of the past ere they elude forever his grasp and weave
them into a harmonious web to which the art preservative
may give immortality. Therefore he who would rescue from
fast gathering oblivion the deeds of a community and send
them on to futurity in an imperishable record should deliver
a plain unvarnished tale.
